# London Waterloo to Dorking

v1.0

Traction **Class 455/8**

TOC **South West Trains**

Route **Portsmouth Direct Line: London Waterloo - Portsmouth**

Duration **25 mins**

Difficulty **Medium**

## Brief

The British summer has truly arrived with a heatwave surging across the country. Unfortunately this has not put the commuters in a good mood! Take the helm at 1D13 as far as Motspur Park and try to avoid upsetting them any further!

## Installation

- Extract the Content folder into your RailWorks directory (often at C:/Program Files (x86)/Steam/steamapps/common/RailWorks)
- Open Train Simulator and enjoy!

## License

Feel free to mess around with this scenario and do whatever you want with it! Just remember to link back to my site if you use it so that others can enjoy it too!

## Timetable

This timetable can also be viewed in the scenario briefing by pressing F1.

I've used the original Class 450 (from the original Portsmouth Direct Line) and Class 444 in an attempt to reduce lag and increase frames! It can still get pretty choppy between Waterloo and Clapham Junction though, so you may want to turn your graphics settings down.

If you don't have any of the requirements you can still play the scenario! Just press F2 when the 'Missing consist' error comes up and click 'cancel' to bypass it.
