Exeter St Davids to Paignton

v2.0 (formerly Return to the Riviera)

Traction High Speed Train
TOC Great Western Railway
Route Riviera Line Electrified
Duration 65 mins
Difficulty Medium

Brief

Although the age is diesel is but a distant memory, the Intercity 125 'High Speed Train' is still fondly regarded by many railway enthusiasts. Fortunately, GWR have arranged a special railtour using one of their old HSTs and have chosen you to have the honour of driving this very special journey!

This scenario uses the lovely Riviera Line Electrified by joethefish! I decided to go along with his story, so the CrossCountry franchise is now owned by Virgin again, who use Pendolinos across their network. GWR continue to operate the Greater Western franchise, and now operate a 4tph stopping service between Paignton and Exmouth (using the Class 365), in addition to 2tph fast services between Penzance and Paddington (using the Class 800). Freight operations are handled by DRS, who use their extensive fleet of Class 68s across the country.

Have fun!

Installation

- Extract the Content folder into your RailWorks directory (often at C:/Program Files (x86)/Steam/steamapps/common/RailWorks)
- Open Train Simulator and enjoy!

License

Feel free to mess around with this scenario and do whatever you want with it! Just remember to link back to my site if you use it so that others can enjoy it too!

Changelog

- v1.0 initial release (as Return to the Riviera)
 - v1.1 replaced the HST with the correct reskin
- v2.0 replaced all 365s with 387s, renamed scenario

Timetable

This timetable can also be viewed in the scenario briefing by pressing F1.

Location	Pl	Arr	Dep
Riverside Yard	1		1652
Exeter St Davids (EXD)	6	1658	1700
Exeter St Thomas (EXT)	1	pass	1702
Starcross (SCS)	1	pass	1710
