## London Bridge to West Croydon

V2.0 (formerly Stopper in the Showers)

**Traction Class 455/8**  
**TOC Southern**  
**Route South London Network**  
**Duration 45 mins**  
**Difficulty Easy**

## Brief

Hello driver! Today you are driving the 2J69 1540 London Bridge to West Croydon Southern service. As always the lines are busy but you should have no problems today! Prepare your cab and allow passengers on board for departure at 15:40. You will be calling at South Bermondsey, Queens Road Peckham, Peckham Rye, East Dulwich, North Dulwich, Tulse Hill, Streatham, Streatham Common, Norbury, Thornton Heath, Selhurst and West Croydon.

I've always enjoyed driving the Class 455/8, so here it is in my first attempt at a busy scenario! Hopefully you should see plenty of traffic in either direction. Set in 2017, so Gatwick Express are now using 387s, Thameslink have replaced First Capital Connect, and Southern have ditched all their Class 456s. The timetable is based on the current working timetable.

I would strongly recommend reducing your graphics settings for this scenario, as there are places (especially the start at London Bridge) that are extremely intensive and the game may crash!

## Installation

- Extract the Content folder into your RailWorks directory (often at C:/Program Files (x86)/Steam/steamapps/common/RailWorks)
- Open Train Simulator and enjoy!

## License

Feel free to mess around with this scenario and do whatever you want with it! Just remember to link back to my site if you use it so that others can enjoy it too!

## Changelog

- v1.0          initial release (as Stopper in the Showers)
- v2.0          renamed scenario

## Timetable

This timetable can also be viewed in the scenario briefing by pressing F1.
