Longbridge to Lichfield Trent Valley

v1.0

Traction **Class 323**

TOC **London Midland**

Route **Birmingham Cross City**

Duration **90 mins**

Difficulty **Easy**

Brief

Welcome aboard unit 323215, which is currently standing at Birmingham New Street.

It's a beautiful Sunday morning and you'll be spending it driving up and down the Cross-City Line. First you must take these two Class 323s to Longbridge as 5N04, and then drive the first northbound service of the day as 2P04.

You are timed to depart from Longbridge at 0912, and then your stops will be Northfield, Kings Norton, Bournville, Selly Oak, University, Five Ways, Birmingham New Street, Duddeston, Aston, Gravelly Hill, Erdington, Chester Road, Wylde Green, Sutton Coldfield, Four Oaks, Butlers Lane, Blake Street, Shenstone, Lichfield City and finally Lichfield Trent Valley.

The lines will be very quiet on your way down to Longbridge, and even when things start to pick up on your way back there shouldn't be too much traffic to deal with - have a good drive!

Installation

- Extract the Content folder into your RailWorks directory (often at C:/Program Files (x86)/Steam/steamapps/common/RailWorks)
- Open Train Simulator and enjoy!

License

Feel free to mess around with this scenario and do whatever you want with it! Just remember to link back to my site if you use it so that others can enjoy it too!

Since this is just a copy-and-paste job, installing this scenario shouldn't break your computer - but if it does I'm not responsible!
